

Perfection on Perfection tow'ring high,
Glory on Glory rais'd, and Joy on Joy,
Each pow'r improving in the bright'ning Mind,
To humble Virtues, lofty Knowledge join'd ;
Be this my highest Aim, howe'er I soar,
Before thy Footstool prostrate to adore,
My brightest Crown before thy Feet to lay,
My Pride to serve, my Glory to obey.

D.	H.	M.	S.	Sec.	Scripture.
1	11	20	5	30	8 20 " made in Number, Weight and Measure."
2	12	14	6	10	9 21 It is certain, by Observations made with good
3	M.	14	6	54	9 22 Telescopes, that, though the Face of the
4	1	7	7	38	10 23 Moon is covered with innumerable Inequali-
5	2	6	8	21	11 24 ties like the Mountains upon the Earth, the
6	3	0	9	4	12 25 is no great Collection of Waters upon it, like
7	4	0	9	54	12 26 our Oceans; nor is there any Reason, from
8	5	0	10	43	12 27 her Appearance through those Instruments,
9	Moon	11	40		2 28 to suppose she has any such Appendage belong-
10	ries	12	36	3	30 ing to her as our Atmosphere of Air. If the
11	A.	M.	36	33	30 Moon is inhabited (as the may for any Thing
12	7	17	1	36	4 31 we know) those who live on one Side or He-
13	8	20	2	30	5 32 misphere never can see our World, and those
14	9	30	3	24	6 33 who live on the other can never lose Sight of
15	10	50	4	18	7 34 it, except when the Earth comes between them
16	11	53	5	11	8 35 and the Sun, as she keeps always one Side
17	12	55	6	2	9 36 turned towards us. Those who live about the
18	M.	55	6	53	9 37 middle Parts of the Hemisphere that looks to
19	1	59	7	44	10 38 wards the Earth, must see it always directly
20	2	3	8	36	11 39 over their Heads with much the same Ap-
21	3	12	9	28	12 40 pearances as the Moon makes to us, some-
22	5	10	10	20	1 41 times horned, sometimes half, and some-
23	Moon	11	12	2	2 42 times wholly illuminated, but of a vastly great-
24	lets	A.	4	3	3 43 Bulk than the Moon appears to us. It
25	A.	12	53	3	4 44 seems highly probable, that the Attraction of
26	6	59	1	42	4 45 the Moon acting more strongly upon the Fluid
27	7	58	2	27	5 46 than the solid Parts of our Terraqueous Globe
28	8	53	3	11	6 47 is the Cause of our Tides, as they answer fo
29	9	52	3	55	6 48 exactly to her Motions and Distances from us,
30	10	49	4	39	7 49 and other Circumstances. To enter upon that
31	11	45	5	21	8 50 Theory, however, would be beside my present
